RHODE ISLAND COAL MINES.

A correspondent of the Tamaton threath Larnishes the following account of the discovery, present workings, and fulure prospects of the coal mines at Portsmouth:

The only successful cold mine cast of the Hudson is situated in the town of Postsmouth. on the Northwest part of the island of Blude The mine was discovered about the beginning of the present century by a person disging a well. There is another mine admits two unles distant on the East side of the island, called Case's mine, which is not now in opera-tion. The mine on the West Side of the island was formerly called the Acquichark mine. These mines, according to Prof. Hitchcook, lie on the Southern border of the great coal-field, tive hundred square miles in extent, comprising a large part of Bristol County and the State of Rhode Island. The district is now pronounced by the highest scientific authority to be a genuine surfuracite coal-lield, some what methorphic in its character, or, in other reguls, the coal possesses paculiar properties imparted to it by beat from the principly rocks which surround it on all sides.

In August, 1857, the Acquiducek mine was purchased by a company of Massachusetts men, consisting of Capt. William Cohle of Dighton. and the Mesers. Samuel L and George A. Crocker of Taunton, who commenced operations under the name of the "Mount Hope Cod Mining Company," Capt. Cabb being the agent and manager. When the new rempany came into possession the mine was nearly full of water, the works have been neglected for a bug fine. The energetic agent at over set to have set to fell of the Neighbor Toxis and remember of the works. bug fine. The shop was closed and locked, and the fire in a secure condition in the stove, and Mr. Card was out. A basket and a hag of shaving a were in the shed, and standing against the side of the shop. Some evil disposed person set tira to the shavings, and took the basket away, after complying out the shavings so that they would burn more readily.-There was no possible way of communicating fire in the place wherethe shavings were except it was purposely done. The tire was discovered by the family who live on the same premises, in Δr . Card's house, and the alaim given in time to prevent damage. Had it been later, it would have doubtless been a disastrous fire, as the building fired was very dry and inflammable.

The building was insured at the Providence Matual, and the damage done about \$20,00.
